CALPIA utilizes URNER BARRY'S WEST COAST EGG MARKET REPORT to determine the weekly base price (detail below). CALPIA then applies a production and transportation differential to arrive at the weekly finished goods price.

CALPIA utilizes the Thursday URNER BARRY'S WEST COAST EGG MARKET REPORT under the section "Frozen/Truckload/20,000lbs+/Whole/no color" and "California Shell Eggs Large" when available.

CALPIA will use the lowest listed price in the category. When Frozen/Trackload/20,000+/Whole/No Color pricing is not available, CALPIA uses the high side of the Midwest Egg Price Current report under the section Frozen/Whole, No Color/20,000 lbs+ . The listed price will be CALPIA's base price.

If the Urner Barry report does not list a price in any given week, the previous week's report is to be used as the base. The final finished good price will be used one week after publication. Pricing is applied as of date of shipment.

FOR DETAILED PRODUCT SPECIFICATIONS, PLEASE REFER TO THE CALPIA WEEKLY PRICE HISTORY.
